

Announcement

Berlin, 13.-14.11.2009

***3rd Hands-on Paediatrics PzA
3rd Congress of Ambulatory Paediatrics in Berlin
&
20th Annual Congress of the ECPCP (formerly ESAP)
European Confederation of Primary Care Paediatricians***

A warm welcome to all colleagues to the 3rd German Congress „Hands-on Paediatrics“ in conjunction with the ECPCP (formerly ESAP), the European Confederation of Professional Organisations of Primary Care Paediatricians.

In 2009 we can celebrate 3 anniversaries:
60 years after the foundation of the GDR (German Democratic Republic) and GER (West Germany) and
20 years after the fall of the Berlin Wall and the reunification of Germany it gives us great pleasure to bring together colleagues from countries East and West of the old „Iron Curtain“, and
20 years ago, the first ESAP (European Society of Ambulatory Paediatrics) congress took place. This year ESAP will expand to form the ECPCP.

The congress will take place in the Ludwig-Ehrhard-Haus with its interesting architecture, providing a good meeting place and a good atmosphere for stimulating lectures.

The lectures will concentrate on the emergent problems of socially disadvantaged and migrant children, on early language development and the importance of good intercultural communication. Furthermore, we will learn about the impact of climate change on new infectious diseases, on the development of antibiotic resistance in Europe and about travelling with children in the tropics.
We cordially invite our foreign and German guests to our social evening on Saturday, where colleagues will bring all kinds of culinary specialities from their countries for tasting. Thereafter we will go on a „bus tour with a difference“.

Looking forward to see you!

Prof. Dr. V. Stephan

Dr. B. Ruppert

Dr. E. Jäger-Roman
